

Sample Green Day Speech

This sample *Green Day* speech can be read out by a student in any school participating in *Green Day*.

Hey everyone, guess what? September, also known as Biodiversity Month is fast approaching / is here!

During Biodiversity Month, people all around the world will be doing their best to help out with the environment. It's great to see that NSW public schools are part of this initiative!

The NSW Student Representative Council encourages all secondary schools in NSW to participate in Green Day to help raise awareness about ways to care for the environment.

Our school will join public schools across NSW and hold our very own Green Day on XXX September so that we can do our bit for the environment. It should be (great / fun...)

On Green Day, our school will be participating in:

(note: only read out the event your school is participating in)

- *A Green Mufti Day. You're asked to come to school dressed up in green. If you can't find something green, then you can wear environmentally friendly clothing ... great way to raise awareness of the environment.*
- *A Green Day Assembly. We will have XXXX, a special guest speaker from XXXX to provide us with ideas on XXX or sustainability or ways to help the environment.*
- *A Green Day media showcase day. Come along and have a look at the winning entries from the Enviro Inspiro! competition. You might find some ideas to help us start planning our school's entry for next year.*
- *A Green Day 'lights off' day. We can save power, reduce energy bills and reduce our school's effect on the environment.*

So, let's all have a great Green Day. Get involved as much as possible and ...

'Go green to help keep the environment clean'.

That's Green!

(smile)
